

LINEAGE

Name: Pantera

Scientific name: *Correlophus ciliatus*

Sex: Female

Breeder: Geeks and Geckos, Belgium

Lineage:

Parents Pantera: Daffodil♀ x Yarrow ♂

Lineage Daffodil♀

Daffodil was the result of Wanted Geckos's male Desperado and ElevatedGeckos's female Andromeda.

Desperado, Daffodil's father, was bred by Lazy Dragon out of the pretty creamsicle girl Banka and Azi. We didn't find lineage of Azi in Lazy Dragon's records.

Banka was bred by Lazy Dragon herself out of Bananowy Pasztet and Zabek. Bananowy Pasztet was on her turn bred by DD Reptiles.

Lineage Yarrow ♂

Parents: Mozarella x JarJAR

Mozarella: Is a sibling of Camambert. Her parents are Katana x Prot. Prot is bred by A van Roey (a friend of Geeks&geckos). The parents of Prot are imported from USA.

JarJAR:

JarJar is bred by Egzocity out of two red harlequins. At that time she didn't name her breeders. It is unknown where they came from. Egzocity's current red harlequin breeders are siblings of JarJar.
